E-mail Encryption With GnuPG and Nitrokey

Jan Suhr <jan at nitrokey.com>
Mateusz Zalega <mateusz at nitrokey.com>
Hauke Laging <support at openpgp-schulungen.de>

Nitrokey

- Secure key storage
- OpenPGPcard
- One Time Passwords (OTP)
- Encrypted mass storage
- Easy to use
- Open Source

We Can Help You With

Basic email encryption:

- key generation
- E-mail encryption and signing
- Key import and verification
- Software: GnuPG (GPG4Win), Thunderbird, Enigmail, Nitrokey

Common problems:

- libccid (pcsclite)
- udev configuration
- gpg-agent

Other topics:

- gnupg2 CLI
- Air-gapped machine setup
- Key revocation
- UID revocation
- Keysigning
